A 16-year-old boy dashed through smoke and flames to a second story bedroom at his home Monday night to rescue his year-old baby sister, just before fire swept the entire house, completely destroying it, with a loss estimated at \$4,000.

Paul L. Little, Jr., a smaller brother, Dwight Douglas Little, 4, and the baby, Paula Mae, were at home alone when fire was discovered at the home of Mr. and Mrs. Paul L. Little, Hanover road, about two and a half miles from Gettysburg shortly before 7:30 o'clock Monday night.

Sending the younger boy out of the house, Paul dashed up the stairway, grabbed the baby in his arms and rushed down the stairs and out of the house.

**Hair Singed, Hand Burned**  
The baby was unharmed, but Paul's hair was singed and he suffered a minor burn on one hand.

He ran with the baby to a neighbor's, where Gettysburg firemen were summoned by telephone.

Three Gettysburg fire trucks responded but the fire had gained such headway it was impossible to save the house, a two-story, log and weatherboard building. Later Fire Chief James A. Aumen called Bonneville, which sent their two trucks to the fire.

**Blame Hot Pipe**  
Firemen said the fire probably started where a stove pipe ran through the wall on the second floor, and had probably been smoldering

## Need Child's Bed

The Red Cross today appealed for donation of a baby's bed as it went about meeting emergency needs of the Little family. The family lost all its furniture but the Red Cross said other gifts of furniture are not sought now because the family would have no place to place them.

The older Miller children—there are six of them ranging in age from 16 to one year—picked cherries last summer to earn money with which to buy clothes for the winter. The clothing had been bought and all of it burned with the exception of what the youngsters were wearing at the time of the fire.

The Red Cross supplied immediate, emergency clothing needs today for the family but said they need additional, good wearable clothing.

for some time. The youngster said he had smelled smoke in the house but had paid little attention to it. He went out doors into the front yard, and, glancing toward the house, saw flames leaping out of the roof.

Even as the Gettysburg fire siren was blowing the flames were visible for some distance away. Firemen used all the water in their booster tanks and pumped a well dry, but were unable to stop the flames. A washing machine and one or two other small articles were all that were saved from the house.

There was no insurance.

**Notify Parents By Radio**  
Mr. and Mrs. Little had left home at 6 o'clock to visit a relative at the Hanover hospital. Gettysburg firemen used one of the radio-equipped trucks to call the engine house here, which in turn asked Hanover police to notify Mr. Little. When the latter reached home, only the burning log walls remained and they soon left. The radio was also used to call Bonneville firemen.

The fire was the second one within a year at the Little home, firemen said. A chimney fire several months ago was extinguished with only slight loss, they said.

Neighbors and relations cared for the family Monday night, after the Red Cross got busy to notify other members of the family and make sure the family had shelter for the night. Today the Red Cross was providing shoes and other clothing to take care of the family's emergency needs. Nearly all of the family's clothing and other possessions were lost in the fire.

## FOUND GUILTY OF MANSLAUGHTER IN WELLER DEATH

A York county jury this morning found John W. Young, Jr., 43, of 126 Baltimore street, Hanover, guilty of involuntary manslaughter as the driver of an automobile which crashed into a light standard in center square, Hanover, at 12:40 a.m. October 11, 1949, resulting in the death of a passenger, Addison Weller, also of Hanover. The jury was out an hour before reaching its verdict.

Young, only witness in his own defense, claimed he went into a state of insulin shock, result of an overdose of 130 units for a diabetic condition, at the moment of the accident.

"I blacked out," he testified.

His jaw was broken in four places, his arm was broken and he had lacerations over his body. Grover F. Eline, Hanover, lost his right leg as the result of the accident. A fourth passenger, Leroy Palmer, Hanover, had lesser injuries.

Both Eline and Palmer testified that they asked Young repeatedly to slow down. Eline's estimate of the speed of the car was 60 or 70 miles an hour. John E. Scholl, Hanover R. 4, truck driver, said the speed was "terrific."

Marks showing the car skidded 81 feet before it struck the post were described by borough policeman Curtis Sponseller, brother of Donald, who headed the investigation. Weight of the concrete standard was estimated at a ton. The four-foot square base was broken off five inches below the street level and pushed more than 18 feet.

## Boy Scouts' Share Of Chest Fund \$2,200; 9 Local Units

For approximately 200 local boys the \$2,200 donated to the Community Chest for Boy Scout purposes will mean additional camping, additional training and additional activities to build character and citizenship.

Of the money raised locally through the Community Chest's \$22,000 drive this year, \$2,200 will go for Boy Scouting purposes. The money raised here is sent to York as part of the over-all budget of the York-Adams Scout area.

Local officials noted that in return for its \$2,200 the borough receives services which it could not duplicate for many thousands of dollars more than the sum sought.

The York-Adams area provides the over-all office for the section, provides the 500-acre camp near Dillsburg, which local Scouts attend for a fee that is much lower than what the camp costs to operate, and provides hundreds of other supervisory and instructional services during the year.

Through the York office, the five local Boy Scout troops, the three

## Sunday's Traffic Brought Worst Jam Here In Years

Gettysburg's traffic jam Sunday was described today by a number of residents as "the worst in years."

With fair weather and the colorful fall display of scenery beckoning, motorists by the thousands tried to get through Gettysburg. It took most drivers during the afternoon and evening from ten to 15 minutes to negotiate the blocks immediately off and around Lincoln Square.

Frequently lines of traffic were so long that they extended through the traffic lights on Baltimore street, preventing cars going east and west from passing even though they had the "green light" signal.

Mrs. Lloyd Schultz, who lives three miles west of here on the Lincoln highway, reported that in the 23 years she has lived there, Sunday evening, between 5:30 and 6:30 o'clock marked the first time traffic tie-ups extended out of the borough as far as her home. At first the Schultz family thought an accident had occurred, but when the tie-ups continued it became evident they were caused by the tremendous traffic on the Lincoln highway.

While the Nataional park office had no figures on tourist visitation available today, it was reported that Sunday was marked by one of the largest visitations to the battlefield this year.

The condition was described as general throughout the East. National Cemetery Superintendent Vernon Lunt and Mrs. Lunt, who drove to Shenandoah during Sunday said there was "one long string of cars between here and there."

At one time Sunday afternoon traffic stopped by the York street light extended around the square and out Baltimore street to near South street thus rendering useless the action of the traffic lights on Baltimore street.

At Devils Den, on the battlefield, Sunday afternoon, tourists parked at the den had filled the established parking zones and were parked for a quarter of a mile along the avenue leading to the section. Similar conditions obtained at other points of interest on the field.

## DRIVER IS FINED AFTER ACCIDENT

George Soper, 21, of Ling's Park, Long Island, N. Y., paid a fine of \$10 and costs to Justice of the Peace F. E. Coulson, York Springs, on a charge of driving too fast for conditions. The charge was filed by state police of the Gettysburg substation as the result of an accident investigation.

Police said Soper's car ran into the rear of an automobile driven by Ralph W. Hassler, 19, of Wernersville, Pa., two and a half miles north of York Springs on the Gettysburg-Harrisburg road at 9:25 a.m. Sunday. Hassler had slowed for traffic turning into a church, police said, and Soper was unable to stop his car in time. Both vehicles were traveling north.

Damage to Soper's car was estimated at \$125 and to the Hassler car at \$10.

Mrs. Edith W. Palmer, 36, of Lancaster, was treated at the Chambersburg hospital Saturday night for a laceration of the chin, cut on her head and bruises of both knees suffered when a car driven by her husband, John William Palmer, 37, was struck by the automobile of Frank T. ## Marine Pilots Fired On By Manchurian Border Guns

Seoul, Korea, Oct. 24 (AP)—Two U.S. Marine pilots said today they were fired upon by Red China guns from across the Manchuria border while they were flying inside Korea.

Neither plane was damaged, a Marine spokesman said at Wonsan. The officer said the incident took place late Monday near Manpojin, Korean stronghold near the border-marking Yalu river 20 miles northwest of Kanggye.

Kanggye is reported to be the new command headquarters of Kim Il Sung, Red Korean premier. Red troops have been fleeing into the area, a wild mountain fastness, for several days.

**Troops 35 Days Away**  
The two marine planes were on a reconnaissance mission. The officer said at least 40 rounds of heavy anti-aircraft shells were fired at the two planes. The ack-ack apparently was radar-controlled.

The incident occurred along the border as South Korean troops were reported within 35 miles of Manchuria on the fifth anniversary of the founding of the United Nations.

The Korean war, first U.N. peace enforcement action, was drawing to a close. Only shattered remnants remained of the once powerful Red Korean Army that invaded South Korea June 25—and brought swift retaliatory action backed by 53 non-Communist nations.

## Going To Border

A new U.N. warplane bomb line was drawn in an arc 12 miles south of the Manchuria border. The bomb line usually is placed 20 miles ahead of leading ground troops.

## 16-Year-Old Boy Rescues Baby Sister From Flames As Fire Destroys Dwelling

A 16-year-old boy dashed through smoke and flames to a second story bedroom at his home Monday night to rescue his year-old baby sister, just before fire swept the entire house, completely destroying it, with a loss estimated at \$4,000.

Paul L. Little, Jr., a smaller brother, Dwight Douglas Little, 4, and the baby, Paula Mae, were at home alone when fire was discovered at the home of Mr. and Mrs. Paul L. Little, Hanover road, about two and a half miles from Gettysburg shortly before 7:30 o'clock Monday night.

Sending the younger boy out of the house, Paul dashed up the stairway, grabbed the baby in his arms and rushed down the stairs and out of the house.

**Hair Singed, Hand Burned**  
The baby was unharmed, but Paul's hair was singed and he suffered a minor burn on one hand.

He ran with the baby to a neighbor's, where Gettysburg firemen were summoned by telephone.

Three Gettysburg fire trucks responded but the fire had gained such headway it was impossible to save the house, a two-story, log and weatherboard building. Later Fire Chief James A. Aumen called Bon-neauville, which sent their two trucks to the fire.

**Blame Hot Pipe**  
Firemen said the fire probably started where a stove pipe ran through the wall on the second floor, and had probably been smoldering

## Need Child's Bed

The Red Cross today appealed for donation of a baby's bed as it went about meeting emergency needs of the Little family. The family lost all its furniture but the Red Cross said other gifts of furniture are not sought now because the family would have no place to place them.

The older Miller children—there are six of them ranging in age from 16 to one year—picked cherries last summer to earn money with which to buy clothes for the winter. The clothing had been bought and all of it burned with the exception of what the youngsters were wearing at the time of the fire.

The Red Cross supplied immediate, emergency clothing needs today for the family but said they need additional, good wearable clothing.

For some time. The youngster said he had smelled smoke in the house but had paid little attention to it. He went out doors into the front yard, and, glancing toward the house, saw flames leaping out of the roof.

Even as the Gettysburg fire siren was blowing the flames were visible for some distance away. Firemen used all the water in their booster tanks and pumped a well dry, but were unable to stop the flames. A washing machine and one or two other small articles were all that were saved from the house.

There was no insurance.

**Notify Parents By Radio**  
Mr. and Mrs. Little had left home at 6 o'clock to visit a relative at the Hanover hospital. Gettysburg firemen used one of the radio-equipped trucks to call the engine house here, which in turn asked Hanover police to notify Mr. Little. When the latter reached home, only the burning log walls remained and they soon fell. The radio was also used to call Bonneauville firemen.

The fire was the second one within a year at the Little home, firemen said. A chimney fire several months ago was extinguished with only slight loss, they said.

Neighbors and relations cared for the family Monday night, after the Red Cross got busy to notify other members of the family and make sure the family had shelter for the night. Today the Red Cross was providing shoes and other clothing to take care of the family's emergency needs. Nearly all of the family's clothing and other possessions were lost in the fire.

## FOUND GUILTY OF MANSLAUGHTER IN WELLER DEATH

A York county jury this morning found John W. Young, Jr., 43, of 126 Baltimore street, Hanover, guilty of involuntary manslaughter as the driver of an automobile which crashed into a light standard in Center square, Hanover, at 12:40 a.m. October 11, 1949, resulting in the death of a passenger, Addison Weller, also of Hanover. The jury was out an hour before reaching its verdict.

Young, only witness in his own defense, claimed he went into a state of insulin shock, result of an overdose of 130 units for a diabetic condition, at the moment of the accident.

"I blacked out," he testified.

His jaw was broken in four places, his arm was broken and he had lacerations over his body. Grover F. Elme, Hanover, lost his right leg as the result of the accident. A fourth passenger, Leroy Palmer, Hanover, had lesser injuries.

Both Elme and Palmer testified that they asked Young repeatedly to slow down. Elme's estimate of the speed of the car was 60 or 70 miles an hour. John E. Scholl, Hanover R. 4, truck driver, said the speed was "terrific."

Marks showing the car skidded 81 feet before it struck the post were described by borough policeman Curtis Sponseller, brother of Donald, who headed the investigation. Weight of the concrete standard was estimated at a ton. The four-foot square base was broken off five inches below the street level and pushed more than 18 feet.

## Boy Scouts' Share Of Chest Fund \$2,200; 9 Local Units

For approximately 200 local boys the \$2,200 donated to the Community Chest for Boy Scout purposes will mean additional camping, additional training and additional activities to build character and citizenship.

Of the money raised locally through the Community Chest's \$22,000 drive this year, \$2,200 will go for Boy Scouting purposes. The money raised here is sent to York as part of the over-all budget of the York-Adams Scout area.

Local officials noted that in return for its \$2,200 the borough receives services which it could not duplicate for many thousands of dollars more than the sum sought.

The York-Adams area provides the over-all office for the section, provides the 500-acre camp near Dillsburg, which local Scouts attend for a fee that is much lower than what the camp costs to operate, and provides hundreds of other supervisory and instructional services during the year.

Through the York office, the five local Boy Scout troops, the three

## Sunday's Traffic Brought Worst Jam Here In Years

Gettysburg's traffic jam Sunday was described today by a number of residents as "the worst in years."

With fair weather and the colorful fall display of scenery beckoning, motorists by the thousands tried to get through Gettysburg. It took most drivers during the afternoon and evening from ten to 15 minutes to negotiate the blocks immediately off and around Lincoln Square.

Frequently lines of traffic were so long that they extended through the traffic lights on Baltimore street, preventing cars going east and

west from passing even though they had the "green light" signal.

Mrs. Lloyd Schultz, who lives three miles west of here on the Lincoln highway, reported that in the 23 years she has lived there, Sunday evening, between 5:30 and 6:30 o'clock marked the first time traffic tie-ups extended out of the borough as far as her home. At first the Schultz family thought an accident had occurred, but when the tie-ups continued it became evident they were caused by the tremendous traffic on the Lincoln highway.

While the National park office had no figures on tourist visitation available today, it was reported that Sunday was marked by one of the largest visitations to the battlefield this year.

The condition was described as general throughout the East. National Cemetery Superintendent Vernon Lunt and Mrs. Lunt, who drove to Shenandoah during Sunday said there was "one long string of cars between here and there."

At one time Sunday afternoon traffic stopped by the York street light extended around the square and out Baltimore street to near South street thus rendering useless the action of the traffic lights on Baltimore street.

At Devil's Den, on the battlefield, Sunday afternoon, tourists parked at the den had filled the established parking zones and were parked for a quarter of a mile along the avenue leading to the section. Similar conditions obtained at other points of interest on the field.

## GIVE CONTRACT FOR RENOVATION OF DIET KITCHEN

I. H. Crouse and Sons, Littlestown, have been given the contract for the renovation of the second floor diet kitchen at the Warner hospital, members of the Hospital Auxiliary were told Monday at their regular meeting held in the board room at the hospital.

Walter Doud, administrator of the hospital, in announcing that the contract had been let, added that work was expected to start soon on the renovation.

The cost of the proposed reconstruction of the diet kitchen will be borne to a large extent by money raised through the benefit parties to be held by the Auxiliary Thursday afternoon and evening at the Moose home on York street.

### New Membership Peak

Membership in the Hospital Auxiliary now totals 650, according to reports presented at the meeting. The number is an all time high for the organization.

Members from Taneytown, who last spring began a project of sewing for the hospital and who have since been working as a unit in doing sewing in their homes for the hospital donated \$18 to be used for the purchase of linens, or other articles needed at the hospital.

Mrs. E. S. Lewars, local author and daughter of the first president of the hospital board, Dr. John Singmaster, told of the activities at Philadelphia recently at which she and 11 other Pennsylvania women were honored as "Pennsylvania's Distinguished Daughters."

In addition to describing the program, she showed pictures taken at the event and told about the 11 other Pennsylvania women who were also honored at the Philadelphia meeting.

Refreshments were served by the Littlestown members of the Auxiliary under the chairmanship of Mrs. R. N. Phreaner. Mrs. H. S. Crouse poured assisted by Mrs. Carl Baumgardner and Mrs. William Marshman. Refreshments for the November 27 meeting of the Auxiliary will be served by the Emmitsburg members.

## DRIVER IS FINED AFTER ACCIDENT

George Soper, 21, of Ling's Park, Long Island, N. Y., paid a fine of \$10 and costs to Justice of the Peace F. E. Coulson, York Springs, on a charge of driving too fast for conditions. The charge was filed by state police of the Gettysburg substation as the result of an accident investigation.

Police said Soper's car ran into the rear of an automobile driven by Ralph W. Hassler, 19, of Wernersville, Pa., two and a half miles north of York Springs on the Gettysburg-Harrisburg road at 9:25 a.m. Sunday. Hassler had slowed for traffic turning into a church, police said, and Soper was unable to stop his car in time. Both vehicles were traveling north.

Damage to Soper's car was estimated at \$125 and to the Hassler car at \$10.

Mrs. Edith W. Palmer, 36, of Lancaster, was treated at the Chambersburg hospital Saturday night for a laceration of the chin, cut on her head and bruises of both knees suffered when a car driven by her husband, John William Palmer, 37, was struck by the automobile of Frank T. Kimple, 63, of Orttanna R. 2, at the intersection of the Lincoln highway and the Buchanan Valley road.

Kimple suffered a deep laceration of the right arm, cuts on the left hand and head bruises. State police said Kimple was traveling east on the Lincoln highway and attempted to make a left turn into the other road. Palmer was traveling west and struck the front of the Kimple car.

## Marine Pilots Fired On By Manchurian Border Guns

Seoul, Korea, Oct. 24 (AP)—Two U.S. Marine pilots said today they were fired upon by Red China guns from across the Manchuria border while they were flying inside Korea.

Neither plane was damaged, a Marine spokesman said at Wonsan. The officer said the incident took place late Monday near Manpojin, Korean stronghold near the border-marking Yalu river 20 miles northwest of Kanggye.

Kanggye is reported to be the new command headquarters of Kim Il Sung, Red Korean premier. Red troops have been fleeing into the area, a wild mountain fastness, for several days.

### Troops 35 Days Away

The two marine planes were on a reconnaissance mission. The officer said at least 40 rounds of heavy anti-aircraft shells were fired at the two planes. The ack-ack apparently was radar-controlled.

The incident occurred along the border as South Korean troops were reported within 35 miles of Manchuria on the fifth anniversary of the founding of the United Nations.

The Korean war, first U.N. peace enforcement action, was drawing to a close. Only shattered remnants remained of the once powerful Red Korean Army that invaded South Korea June 25—and brought swift retaliatory action backed by 53 non-Communist nations.

### Going To Border

A new U.N. warplane bomb line was drawn in an arc 12 miles south of the Manchuria border. The bomb line usually is placed 20 miles ahead of leading ground troops.

A reliable source at Allied 10th Corps headquarters, Wonsan, said South Korean troops would drive all the way to the Manchuria border.

The informant said no buffer area would be left unoccupied. There had been reports of a decision to halt allied troops 50 miles south of Manchuria to avoid possible incidents with Red China.

Sketchy battlefield reports showed the South Korean northward drive had lost some of its momentum. A buildup was in progress for the final thrust to destroyed Red Korean remnants.

## BELLS IN COUNTY ARE RUNG TODAY

Bells throughout the county were rung this noon as part of the dedicatory services for the Freedom Bell hung in Berlin, Germany.

The local bells were rung in unison with the first ringing of the Freedom Bell. Countians donated more than \$400 toward the construction and operation of eight radio stations in Germany to beam the truth about democracy to the Russians. The bell placed in Berlin is a symbol of the Crusade for Freedom to "proclaim liberty throughout the world" via the radio stations.

The program from Berlin was broadcast by Radio Station WGOT.

Berlin, Oct. 24 (AP)—The challenging tones of the freedom bell rang out for United Nations day today in this "only spot of freedom behind the iron curtain." Its message of hope was echoed around the world.

The Communists tried frantically to drown out its voice. Within two miles of the dedication site they held a big demonstration. Angry Communist agitators denounced the bell as "a war bell, a hunger bell, a death bell."

But a crowd of nearly a half million Berliners jammed City Hall Square and overflowed into the by-streets. Gen. Lucius D. Clay, his voice husky with emotion, solemnly dedicated the resonant bronze symbol, set in the 200-foot tower of West Berlin's city hall, with this pledge: "To resist aggression and tyranny wherever they appear on earth—that this world, under God, shall have a new birth of freedom."

## Grandson Of Local Couple Slain In Korea

Mr. and Mrs. Samuel J. Lightner, 1124 Penn avenue, Wyomissing, last Thursday received a telegram from the Department of Defense informing them that their son, Sgt. Richard E. Lightner, 20, was killed in action in Korea on September 2.

Sgt. Lightner was assigned to Company E, 9th Infantry Regiment, Second Division.

He enlisted in the army on September 3, 1948, three months after graduating from Wyomissing high school. He was stationed at Fort Lewis, Wash., until sent overseas on July 17, arriving in Japan 13 days later.

Sgt. Lightner was the grandson of Mr. and Mrs. Edward Lightner, Baltimore road.

# JUDGE EAGAN

(Continued from Page 1)  
Governor Duff says the only question in Korea.  
"And in Korea there has been a resounding answer. Let us look at history. If we were unprepared for Korea it was only because the Republican senators and congressmen refused to give aid to Korea, refused to pass the laws that would have made us so strong in Korea that we would not have had to fight because the North Koreans would not have more in history. If it had not been for the Republicans the United States would have been a member of the League of Nations which would have prevented World War II. Just a short time before Pearl Harbor the Republicans came within a vote of throwing out our entire selective service system. A year before Pearl Harbor, the Republicans turned down President Roosevelt's request to fortify Guam, which possibly would have deterred the Japanese from attacking us at Pearl Harbor. If the question is Korea, then let it be that, for the obstructionism of the Republicans was largely responsible for our unpreparedness there."  
Congressman Linc urged all to vote and get out the vote. If we are to maintain our Democracy we must spread the idea of the need and privilege of voting.  
Bringingman termed the "distribution of funds for public roads in Adams county inefficient. With the same amount of money spent here in year all of our roads should have been put in good shape and there should be no forgotten corners such as the Littlestown-Germany township section," he declared.  
County Chairman Fred G. Klunk introduced the master of ceremonies and urged the Democrats "to do everything in your power to help us secure success at the November 7 election."

## State Police Say

Always drive within your stopping distance. Keep enough clear space ahead in order that you may stop with safety. To stop "on a dime" from 50 miles per hour, the time would have to be 193 feet wide! Think it over and drive accordingly.

## Scientists Assail McCarthy Charges

Washington, Oct. 24 (AP)—Half a dozen scientists last night assailed an assertion by Senator McCarthy that the ranks of U.S. scientists "have been infiltrated to an alarming degree by the Communist enemies" of this country.

Calling for "a relentless examination" of the attitude of the atomic energy commission with respect to communism, the Wisconsin Republican said in a statement in the congressional record:

"This real threat to the nation's security is a matter which either has been ignored by the atomic energy commission or treated far too lightly by this vital administrative agency of the government."

For the commission, chairman Gordon Dean replied in a statement that since the AEC took over control of the nation's atomic program on January 1, 1947, "no person employed by the commission or its contractors nor any of the commission's consultants or advisers has ever been arrested or indicted much less convicted of any act of disloyalty."

## MEXICAN TEAM IS CHALLENGED

Harrisburg, Pa., Oct. 24 (AP)—A strong threat developed today to Mexico's long domination of International Horse show jumping events. It came in the guise of a fine English team, making its first American appearance in 13 years. Heading the England entry is Wilfred H. White, a 40-year old Cheshire dairy farmer.

White, astride his large deep bay mount—Nizefela—won last night's preliminary jump at the opening of the week-long Pennsylvania National Horse show with a flawless performance.

A matter of seconds decided the event in favor of White over Senorita Eva Valdes, Mexico's woman rider who also completed the difficult nine-obstacle course without a fault. The 22-year old senorita rode Arete, famed mount of Col. Humberto Mariles, Olympic champion and Mexican team captain who gave up active participation in the jumping events this year to younger riders.

International low score competition was scheduled to get underway late today and run through Saturday in this first of the big three North American Horse shows.

While last night's preliminary event was scored on an individual basis, unofficial tabulations gave Mexico first place with 124 faults. Then followed England with 15, Canada with 16; United States with 20; Chile 21, and Ireland with 29.

The newest top ten: SMU, Army, Oklahoma, Kentucky, California, Ohio State, Texas, Tennessee, Northwestern, Cornell.

Now Texans are just as enthusiastic about this great SMU machine that has rolled up 184 points in smashing five major foes—Georgia Tech, Ohio State, Missouri, Oklahoma A. and M. and Rice.

Of the main contenders for National honors, the Mustangs apparently have the roughest road ahead. They are idle this week but then run into five conference opponents in order, starting with big, tough Texas Nov. 4.

Softer sailing is promised for Army, which dropped to second after two weeks on top, and Oklahoma, which also fell a notch to third.

The West Pointers, with one of their great teams, have it easy with Columbia this week. Penn next week, Stamford and Navy are their largest obstacles.

The Oklahoma Sooners, with a 25-game winning streak going, have Kansas and Nebraska as the main humps in their remaining schedule.

SMU gained 95 first place votes among the 246 sports writers and broadcasters participating. The Mustangs got 2,071 points on the basis of ten for first, nine for second, etc.

Just as an example of how the mighty have fallen, Notre Dame, the once unconquerable National champion, dropped into a tie for 38th with only 3 points. The fighting Irish, who lost to Indiana Saturday for their second setback, got one eighth place vote.

The top teams (first place votes and season records in parentheses):

Top Ten	Points
1. Southern Methodist (96) (5-0)	2,071
2. Army (84) (4-0)	1,991
3. Oklahoma (35) (4-0)	1,874
4. Kentucky (15) (5-0)	1,286

7. Texas (3-1)	782

### JOBS AT LETTERKENNY

The U.S. Civil Service commission today announced openings at the Letterkenny ordnance depot for laborer and laborer (custodial) at salaries ranging from 92 cents to \$1.29 per hour. No written test is required. Applications will be accepted at Letterkenny until the needs are met.

Exhibits at the State museum at Santa Fe, New Mexico, include two old stagecoaches, originals and not reproductions, both in good repair.

Vegetation is just beginning to reappear in the Valley of 10,000 Smokes in Alaska, 38 years after the eruption of Mt. Katmai.

## Avoid Hunting Accidents

The above illustration shows a dog discharging a gun into body of hunter. Guns should always be unloaded, broken open or have action open when not in use. NEVER leave a gun in an unsafe position ANYWHERE. NEVER place a loaded gun anywhere that it might fall or be knocked down or discharged.

## Junior High Game Wednesday Night

The Gettysburg - Biglerville junior high school football game will be played here Wednesday evening at 7:30 o'clock instead of Thursday evening as previously scheduled.

Through the courtesy of the Gettysburg high authorities, arrangements were made to advance the game due to the important Palmyra-Biglerville varsity tilt at Biglerville Thursday evening, the winner of which will probably gain the Conference of the Roses title.

Joach Rogers Herr's team won its first game, after two reverses, last Thursday when Hershey was defeated here 14-0.

## Sports Roundup

By HUGH FULLERTON, JR.

New York, Oct. 24 (AP)—Lou Little wouldn't be guilty of such a pun, but he obviously agrees that when the fair catch was eliminated from college football, the rules committee was caught with its pants down.

Little frankly admitted yesterday that "it might have been a mistake."

The committee, trying to clear out unnecessary rules and wordage, knocked out the fair catch without anticipating the development of the spread formation on kicks.

Now the poor safety men (who called "em that") are faced with a choice between a kick bound far down the field or making a catch with about seven big guys waiting to tackle them.

Steve Owen, with a recent lesson from the Cleveland Browns in mind, is even more emphatic. "I think they should put it back now this week," said Steve. "Some kid is liable to be killed that way."

Former champ Dick Chapman dropped in recently to inspect the Saucon Valley club, where the 1951 National Amateur Golf championship will be played, and was so enthusiastic about the course he wrote to the U. S. Golf association about it.

Frank Stranahan echoed Dick's opinion and Willie Turnesa is due for a trial spin there today. Eddie Talboom, who is being tabbed as Wyoming's All America candidate after scoring 80 points in five games, is a product of South Bend, Ind.

Washington high and played freshman football in 1941 at Notre Dame. The Irish likely could use him this season if they could have kept him around this long. Bill Leckonby, coach of the unbeaten Lehigh grid team, also claims to be the most successful golf coach in the college's history. Bill's coaching, he says, consists of talking to the golf captain in the morning and holding football drills in the afternoon.

The West Point Public Information department received a cable the other day asking that clippings be all the Army football games be rushed to Gen. Douglas MacArthur, who is "vitaly interested" in the football fortunes of the cadets. concluding on an optimistic note, the cable said: "War here easing up."

## Make Big Haul In Cash From "Bookie"

Teaneck, N. J., Oct. 24 (AP)—Two quick raids by New Jersey's deputy attorney general yesterday netted a cash haul of \$127,000 at the plush home of "one of the biggest bookies in the nation" and a trunk-load of his alleged betting records.

The money—stacked in neat rows of \$5, \$10 and \$20 bills—was found in a wall safe in the basement junk room of Leo Link, alias J. W. Donaldson, already under indictment in a Western Union horse race betting case.

Deputy Attorney General Nelson Stamler, who personally led the raids, pinned the "biggest" bookie label on the 50-year-old Link.

Stamler parlayed a "hunch" into the seizure of the trunk-load of alleged gambling slips, telegrams from bettors and letters to Link in a later raid at nearby Palisades park. He is expected to announce today the results of his study of the trunk's contents.

# ENGINEERS OF LEHIGH SHOW GRID PROWESS

Bethlehem, Pa., Oct. 24 (AP)—The Lehigh University football team has this steel town as hot as a blast furnace.

With four games to go, the Engineers have already whipped Dartmouth and four other opponents this season without a loss.

Last Saturday 400 Bethlehemites took the long trip to Hanover, N.H., to watch Lehigh upset a Dartmouth team that went into the game a 20-point favorite.

And when Coach Bill Leckonby brought his boys back home a caravan of cars was waiting at the Allentown airport. There was a horn-blowing parade through Allentown and on to the Lehigh campus at Bethlehem.

### Lost 16 Lettermen

If Lehigh wasn't a staid engineering school, the students might have torn down Lehigh mountain. Even so, oldtimers couldn't recall so much enthusiasm over a Lehigh team since way back when.

Lehigh's rise to football prominence began five years ago when Leckonby, fresh from the Brooklyn Dodgers, pro football ranks, was hired as head coach. A graduate of St. Lawrence university, Leckonby played with the Pensacola Naval Air Station team, Jacksonville, and in Hawaii while in service.

Lehigh's success this season is all the more surprising in view of the loss of 16 lettermen from last year's squad. Leckonby retained a good backfield nucleus, however, in Half-backs Dick Gabriel and Dick Doyle, Quarterback Herb Weiss and Full-back Bob Boroski.

Leckonby describes Gabriel as one of the best backs in the east. Last season he led the scoring race in eastern collegiate circles with 96 points on 16 touchdowns. He became the first player to crack the 1,000-yard mark in the Eastern Collegiate Football conference with 1,023 yards in nine games.

So far this season Lehigh has downed Delaware (21-0), Case (21-20), Bucknell (27-7), Gettysburg (42-6), and Dartmouth (16-14). Yet to be met are Rutgers, Muhlenberg, Carnegie Tech and Lafayette.

Altomose, vice president of the Fideli-Philadelphia Trust company, trustee for the turnpike bondholders.

"This is a day long to be remembered in Pennsylvania," Governor Duff declared. "They used to say that the Pennsylvania turnpike began nowhere and ended nowhere. With the completion of the eastern extension and the western section in operation, it will be only a short time until we have a four-lane highway stretching from one end of Pennsylvania to the other."

### Local Men Extend Greetings

"I am confident that this will be one of the greatest agencies in the commonwealth for the betterment of business. To all of us present, this is a great historical ceremony which will go down as an important date in Pennsylvania history."

The Gettysburg representatives brought greetings from this community and congratulated state and turnpike commission officials.

"I am sure there will be a great flow of motor traffic to Gettysburg from the turnpike, and from Gettysburg to the turnpike," Burgess Weaver said.

"The Gettysburg Motor club congratulates the commission for its accomplishment and is delighted with the Gettysburg interchange," Mr. Scharf said. "We hope it will bring many persons to Gettysburg, which attracts so many to this section of the state."

Senator McPherson added his congratulations and extended an invitation to "come to Gettysburg by way of Route 15." Similar congratulations and sentiments were expressed by Mr. Garvin.

Turnpike commission officials and officers of Carlisle organizations were introduced, and Miss Emilie Longacre, "Miss Pennsylvania of 1950" also appeared on the program.

Thomas J. Evans, chairman of the turnpike commission, said: "We are going to open the turnpike as quickly as possible. It looks like it might be between the first and 15th of November, but it will be open as soon as possible. Right now we are two months ahead of schedule. You will be notified through the newspapers of the opening."

The turnpike preview and dedication caravan left King of Prussia, the eastern terminus, Monday morning and traveled west, with stops at all the interchanges for brief ceremonies.

# GIVES POLICY ON RESERVISTS

Washington, Oct. 24 (AP)—Secretary of Defense Marshall has laid down a uniform policy for all the armed forces to follow in recalling reservists to active duty.

It was intended, Marshall said in a directive yesterday, "to obviate the uncertainty with which both the employer and the reservist employee presently are confronted, and to eliminate or reduce to a minimum the inequities in the recall of reservists."

The directive, sent to the secretaries of the army, navy and air force, orders that each service:

1. Decide its manpower requirements for six months in advance and notify reservists not called on to fill those requirements that their recall "is at least four months remote" unless material changes in military requirements "otherwise dictate."

2. Give those called up at least 30 days for setting their personal affairs before time to report for duty. (This time now varies considerably with the services, running between 15 and 30 days.)

3. Remove from its active reserve list all reservists who, for physical or other valid reasons determined by the service, are not available for extended active duty.

4. Keep reservists on active duty only until (a) manpower requirements can be met by the draft or volunteers, and (b) the involuntary reservist, and units have reached a "maximum state of training." This replaces the present policy of calling reservists for an indefinite period in order to bring about a rapid expansion of the armed forces.

A department spokesman said the same policy would hold for national

guard units. It was not possible to say how long it would take to achieve a "maximum state of training" for such units as a National Guard division or a reserve unit, he said.

London, Oct. 24 (AP)—A divorce petition in which an ex-army major cited his 66-year-old father, Sir John Dixon Mayhew, as co-respondent, was dismissed in divorce court Monday.

The court ruled that the petitioner, 41-year-old John De Perigault Mayhew, "gave no direct evidence" of adultery between his third wife, Mrs. Frances Phoebe Mathew, and her elderly father-in-law, a former Conservative member of Parliament.

Allentown, Pa., Oct. 24 (AP)—Two men were killed and 16 men and women injured on Sunday when a trailer-truck and a truck carrying migrant farm workers crashed a half-mile west of Allentown.

Corp. Miles Gibbons of the state police identified the dead as Benjamin Sussman, 38, South Zone Park, Long Island, N. Y., driver of the trailer-truck and C. B. Dove, 41-year-old Philadelphia negro.

The largest crowd in years is expected to pack the Musselman Memorial field at Biglerville Thursday evening for the Bienville-Palmyra game which starts at 8 o'clock. Both teams are unbeaten to date and the victor of the game will be an odds-on favorite to clinch the Conference of the Roses title.

Trojans Here Friday

Gettysburg high faces an old-time rival in its final home game of the season Friday night when the powerful Chambersburg Trojans, leaders of the South Penn conference and favorites to repeat their 1949 championship, play here.

Saturday's program is highlighted by the invasion of Johns Hopkins university, of Baltimore, whose griders have high hopes of turning back the Bullets in Memorial field. That game starts at 2 o'clock.

## MEXICAN TEAM IS CHALLENGED

Harrisburg, Pa., Oct. 24 (AP)—A strong threat developed today to Mexico's long domination of International Horse show jumping events.

It came in the guise of a fine English team, making its first American appearance in 13 years. Heading the England entry is Wilfred H. White, a 40-year old Cheshire dairy farmer.

White, astride his large deep bay mount—Nizafela—won last night's preliminary jump at the opening of the week-long Pennsylvania National Horse show with a flawless performance.

A matter of seconds decided the event in favor of White over Senorita Eva Valdes, Mexico's woman rider who also completed the difficult nine-obstacle course without a fault.

The 22-year old senorita rode Arete, famed mount of Col. Humberto Mariles, Olympic champion and Mexican team captain who gave up active participation in the jumping events this year to younger riders.

International low score competition was scheduled to get underway late today and run through Saturday in this first of the big three North American Horse shows.

While last night's preliminary event was scored on an individual basis, unofficial tabulations gave Mexico first place with 12½ faults. Then followed England with 15; Canada with 16; United States with 20½; Chile 21, and Ireland with 29½.

## SMU REPLACES ARMY AS TOP GRID MACHINE

New York, Oct. 24 (AP)—Texans, who take a fierce pride in their football, had hopes today of their first National champion in 11 years.

### Scientists Assail McCarthy Charges

Washington, Oct. 24 (P)—Half a dozen scientists last night assailed an assertion by Senator McCarthy that the ranks of U. S. scientists "have been infiltrated to an alarming degree by the Communist enemies" of this country.

Calling for "a relentless examination" of the attitude of the atomic energy commission with respect to communism, the Wisconsin Republican said in a statement in the congressional record:

"This real threat to the nation's security is a matter which either has been ignored by the atomic energy commission or treated far too lightly by this vital administrative agency of the government."

For the commission, chairman Gordon Dean replied in a statement that since the AEC took over control of the nation's atomic program on January 1, 1947, "No person employed by the commission or its contractors nor any of the commission's consultants or advisers has ever been arrested or indicted much less convicted of any act of disloyalty."

### HEART POWER

We speak of our automobiles and boast of our engines as having so much "horse power," that being the measure of their speed. I got to thinking this over and I began to think of those wonderful human beings, who when contacted, seem to uplift and inspire us so that the very speed of our mind is accelerated and our heart, as well, given renewed power.

It's the heart power that makes us thoughtful and helpful, that takes us out of discouragement and temporary failure. Heart power that is unconsciously given to us by someone who is understanding and sympathetic. You meet such a one and an entire day is changed, or maybe a week—or a lifetime! We all meet such people. Their own heart power is of such a nature that they loan it out to us!

If an engine has a high horsepower, or as it is written h.p., we know at once how powerful it is. Now as to heart power take Dr. Albert Schweitzer, for example. He was noted as one of the greatest musicians and theologians in all Europe, but he gave all that up that he might administer to thousands of ignorant, though needy, natives in the primeval jungles of Africa and among a strange and primitive people. For nearly half a century he has given himself away in service. Life magazine called him "the greatest man in the world."

How would you estimate the heart power of such a one?

How fortunate many of us are with the friends we have, for every great one means that much more heart power to us. And every time we do something worthy, or helpful to some one else, we increase the heart power within ourselves. I have read many a book, seen many an act in a theatre, and witnessed many a fine deed by some one, that increased immediately my own heart power, for we are being forever influenced. We take heart when we see others brave and uncompromising. But our heart power is lowered when people speak so as to hurt our feelings, or make us unhappy. It's heart power, not material power, that builds character and nations!

Tomorrow Mr. Adams will talk on the subject: "We Die A Little"

## Just Folks

**ANCESTRY**  
Behind us all there lies a host  
That hoped and dreamed, as  
now do we,  
And toiled for those they  
cherished most  
And gave to us our ancestry.

**The men their maidens wooed  
and wed.  
The mothers, as do ours today,  
Kneel nightly as some little bed  
To hear their sleepy children  
pray.**

**And some were strong and some  
were weak  
And some were brave and  
some afraid;  
Some arrogant and others meek.  
A few their little fortunes  
made.**

**They lived for us, but knew us  
not.  
Descendants of that host are  
we  
And after us, when we're forgot,  
Will children come we'll never  
see.**

## Al Jolson, Jazz Singer, Dies Suddenly Last Night

San Francisco, Oct. 24 (AP)—Al Jolson, the veteran jazz singer who was the first U.S. star to entertain troops overseas in both the second world and Korean wars, died unexpectedly last night with a quip on his lips:

"Hell, Truman had only one hour with MacArthur. I had two!"

Then . . . "I'm going, boys," the famous mammy singer told two longtime friends with whom he was playing gin rummy in the St. Francis hotel.

He died quietly, quickly, of a coronary occlusion . . . and without pain, said the house physician.

**Just Back From Korea**

Jolson, 64, had returned only two weeks ago from Korea, where he sang to Allied troops. He had a two-hour luncheon chat with General MacArthur in Tokyo enroute.

President Truman and MacArthur talked privately just an hour on Wake Island a week ago Sunday in their historic get-acquainted meeting.

With Jolson were two old friends, song writer Harry Akst and Martin Fried, Al's accompanist and arranger. They had come with him from southern California for a scheduled guest star spot on a Bing Crosby radio show, to have been recorded here tonight.

Akst telephoned Jolson's fourth wife, Erle Galbraith, whom he married in 1945. She was at Encino, Calif. She was reported to have collapsed with grief.

**Entertained G's**

Jolson was riding the crest of a popularity wave for the second time in an entertainment career that began in 1899. His popularity with the troops was unsurpassed. In World War II, he traveled to Europe, Africa, India and the Pacific, entertaining G's for the USO.

On his return from Korea, where he gave 42 shows in 16 days, he said: "Know what it feels like to be back? I'm going to look up my income tax and see if I paid enough. Those guys are wonderful! This is a much tougher war than the last one, believe me."

He entertained G's at the front when the American beachhead in Korea was at its smallest and under constant attack.

"I was singing up there for some guys and there was a lot of noise," he related. "So I says to an officer, 'Why don't you tell those kids of yours outside to stop shooting off those rifles?'"

"Those aren't our kids," he told me!

**Born In Russia**

Al was born Asa Yoelson on May 26, 1886, the son of a Jewish cantor, in what was then St. Petersburg, Russia. He came with his family to Washington, D. C., while a small boy. His father trained him for the church. But he had other ideas. He appeared in a play mob scene and then ran off with a circus.

He first starred on the stage—in blackface—in 1909 with Lew Dock-staders' minstrels. Two years later he was discovered by the Shuberts and hired for their Winter Garden in New York.

The most famous of his Broadway performances was his bended-knee rendition of "Mammy," for which he became known as the Mammy singer. Then Hollywood beckoned.

His greatest movie, "The Jazz

## GILBERT'S CASE BEFORE COUNCIL

Washington, Oct. 24 (AP)—Judson Ruch, lawyer for the only soldier who has received a court martial death sentence in the Korean War, takes the officer's case before the Army's judicial council today.

Ruch, of York, Pa., was to plead informally in the case of Army Lt. Leon Gilbert, also from York.

Gilbert was sentenced to death by General Court Martial for "misbehaving himself before the enemy by refusing to advance with his command" in Korea. In World War Two, only one serviceman paid the supreme penalty for a military offense.

Gilbert's sentence was upheld by Maj. Gen. William B. Kean, 25th Division commander, and sent to the Army's Judge Advocate General, Maj. Gen. E. M. Brannon, for review.

That's where it is now. If Gen. Brannon decides the trial was properly conducted, with regard to the points of military law involved, he cannot change the verdict. However, the case then must go to President Truman, who alone has the authority to modify or set aside the verdict.

Eye witnesses who should have become defense witnesses, an officer said, weren't given time off to testify at the trial, but prosecution witnesses were. Smith said Gilbert did not actually disobey the order to advance, but rather "attempted to reason" with his commanding officer. Gilbert has said the same thing but the court martial held he did disobey the order. An army spokesman said only the finest of lines separates arguing about an order and disobeying it.

# COMMUNISTS IGNORE NEW SECURITY ACT

Washington, Oct. 24 (AP) — The Communist party and all its affiliated groups continued today to ignore the new internal security act as a move was made to overthrow the act in the courts.

The time allowed for voluntary registration by "Communist action" and "Communist front" organizations expired when the Justice Department closed its business day yesterday. The law requires these organizations to register, disclose their sources of funds and in some cases furnish complete membership lists.

In the view of government officials, this disregard of the registration provisions constituted open defiance to be followed by enforced registration procedure. It was indicated first steps will soon be forthcoming.

These developments

Meanwhile there were these developments:

1. The Justice Department continued a nationwide roundup of alleged top alien Communists in the United States, designed to bring about their deportation or force their departure. A provision of the new law provides for their detention, in jails or on Ellis Island, while proposed deportation is pending. The drive was aimed at about 86 aliens whom the department described as among the party's most active instructors and propagandists.

2. A large group of persons opposed to the new act sought to enjoin enforcement of any of its numerous provisions, and particularly the Communist registration requirement, in the U.S. district court here. The 107 plaintiffs from 32 states included Elizabeth Gurley Flynn, member of the Communist party's national committee; Wil-

## Littlestown

Littlestown—The weekly rehearsal of the Littlestown Men's chorus will be held Thursday at 9 p.m. in St. Paul's Lutheran church. Director L. Robert Snyder has stated that this will be the last rehearsal before their engagement on Sunday afternoon at 2:30 o'clock at the Veterans' hospital, Coatesville. This engagement is sponsored by the Mason and Dixon Memorial Post No. 6954, VFW.

Week-end visitors at the home of the Rev. and Mrs. Samuel W. Beck, East King street were their son and daughter-in-law, Mr. and Mrs. Leslie Beck and son Richard, Radford, Va., and their son-in-law and daughter, Mr. and Mrs. George Sheaffer, daughter Barbara and son John, Milford, Del.

Charles Ritter, general chairman of the Pennsylvania Week observance in Littlestown, has announced that Mrs. Monroe Stately, East

William L. Patterson, attorney and secretary for the civil rights congress, which is on the attorney general's subversive list; and Arthur Schutze, executive secretary of the American labor party of New York.

3. President Truman named the five-man bipartisan Subversive Activities Control Board (SACB) authorized in the internal security act to order the registrations of reluctant Communist groups. Continued failure to register, after a board order, will involve fines up to \$10,000 a day for organizations and in the case of individuals a \$10,000 fine or five years imprisonment, or both.

4. Immigration service officials put finishing touches on a new set of regulations required by the new law for a blanket ban on admissions of present or former members of any foreign totalitarian movement. The ban is now being applied to all present or past Communists, Fascists, Nazis and Spanish Falangists, except where the attorney general grants temporary entry "for compelling reasons."

King street, won the tea set for being the person that was closest in her guess of the number of grains of corn in a quart jar on display in St. Aloysius hall during the observance last week.

The roast turkey supper which will be served family style by the Ladies' Aid society of St. John's Lutheran church, will be held Saturday, November 11, beginning at 4 p.m. instead of November 4 as previously announced. This supper will be held in the social hall of the Sunday school building.

Den No. 2 of Littlestown Cub Pack No. 84, Mrs. Robert Miller, den mother, enjoyed breakfast at the Victory Lunch, Hanover, on Saturday morning at the time of the broadcast. It was the 10th birthday anniversary of Wayne Miller, son of the den mother. After the broadcast, they visited the Boy Scout counter at Penney's to become acquainted with many of the items of Boy Scout paraphernalia. Those attending were Wayne Miller, John Reynolds, William Renner, Robert Basehoar, Kenneth and Douglas Knight and Dean Reynolds.

Evelyn Dickinson was the leader of the Christian Endeavor society of St. Paul's Lutheran church on Sunday evening. Following a song service, a poem was read by Dolores Rae Reindollar. Darla Lemmon read the scripture lesson and Albert Stock offered prayer. Dawn Pettyjohn presented a piano solo. The topic, "Let him deny himself" was discussed by the leader. Tonight the society will hold a Halloween party at the church at 7:30 o'clock. This party will be for the members and their guests. The following committees are in charge of the event: Refreshments: Dolores Rae Reindollar, Evelyn Dickinson, Dolores Kooztz and Lou Eta Miller; decorating: Albert Stock, Gene Miller, Jean Yealy, Darla Lemmon and Dawn Pettyjohn; games: Lydia Sentz, Jean Yealy and Mary Keith. # DRAFT FACING PROBLEM WITH COLLEGE BOYS

By JAMES MARLOW

Washington, Oct. 24 (AP)—The nation faces the following problem as it drafts young men for the armed forces:

There's a continuing need for scientists, doctors, lawyers, educators, scholars and other college-trained, professional people.

There's a double need for them: The nation is still growing and they must be available to replace older men who die or retire.

This country feels now a shortage of such young scientific and professional people as a result of the drain on them in World War II.

If these now of draft age have to spend two or three years in the army, they can't get the necessary college or professional training either.

What's the answer? Take them into the army anyway and let the future worry about young, trained scientists and other professional men?

Penalizing the Poor  
Or, perhaps, should all college stu-

dents be draft-proof? If that's the answer, then—

Many youths with high intelligence, lacking the money for college, will have to serve in the army while others, with money but poorer minds, will be deferred from military service.

That would mean penalizing youth because they were poor. What then is the solution if the armed forces are to get the young men they need while the nation continues to get a flow of college-trained men?

To help find the answer, Maj. Gen. Lewis B. Hershey, director of selective service, in the fall of 1948 called on scientists, educators and scholars.

He appointed seven committees of them. They've worked on the problem ever since and this month turned in their recommendations to Hershey.

He hasn't acted on them yet. There's no indication when he will act or whether he'll accept or reject the recommendations or revise them. Briefly these are the recommendations:

1. Youths who score the equivalent of 120 or more on the army's general classification test—an intelligence test—get deferred so long as they continue in school, provided—

They're in the upper half of the freshman class, the upper two-thirds of sophomore year, the top three-fourth of junior, and—if they

want to go on to graduate school—the upper-half of senior year.

2. A poor boy who shows superior intelligence in a test should be sent to college on a scholarship paid for by the government because the nation needs brains, no matter who has them.

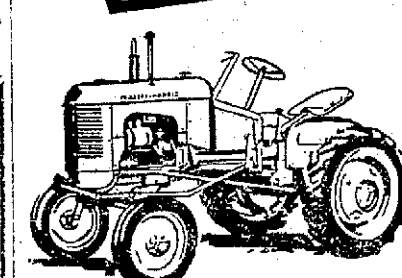

And these committees don't draw

An up-to-date comparison

**Your best buy in cooking  
is an automatic**

**GAS RANGE**

It's not just a matter of style, although today's gas ranges—like today's automobile—are far more beautiful than their predecessors of a few years back. Mechanical improvements in gas ranges are equally as sensational as those in the modern automobile . . . so when you're considering a new range, make certain that your comparison is based on 1950 models—not on the old gas range you're using, or the one your mother had. Here are some facts that will help you judge the merits of modern cooking equipment.

## Only with GAS

—can you cook food the way it should be—at the right temperature—because you have hundreds of different heats to choose from. Cooking doesn't take as long with gas, either, and food tastes better!

## Better Baking

Cake layers are look-alikes when they come out of the oven of an automatic gas range—baked evenly all the way through, even though baked on different shelves. Pies, casserole dishes,—anything bakes better in your automatic gas oven.

## Broiling with GAS

—is a delight. No smoke gets into the kitchen. The gas flame eats it all up.

## Compare Costs

—and you'll find a whale of a difference! You can own a new automatic gas range for from \$30 to \$100 less than others. You can have it set up cheaper . . . you can cook on it for less. You'll have no expensive burners to replace, for gas burners don't wear out.

## Really Clean!

The longer you have your automatic gas range, the more you'll like it. When it comes time to clean it—you'll be doubly thankful. Just lift burners and drip pans out, wash them, put them in again. It's that simple.

## No blackened pans

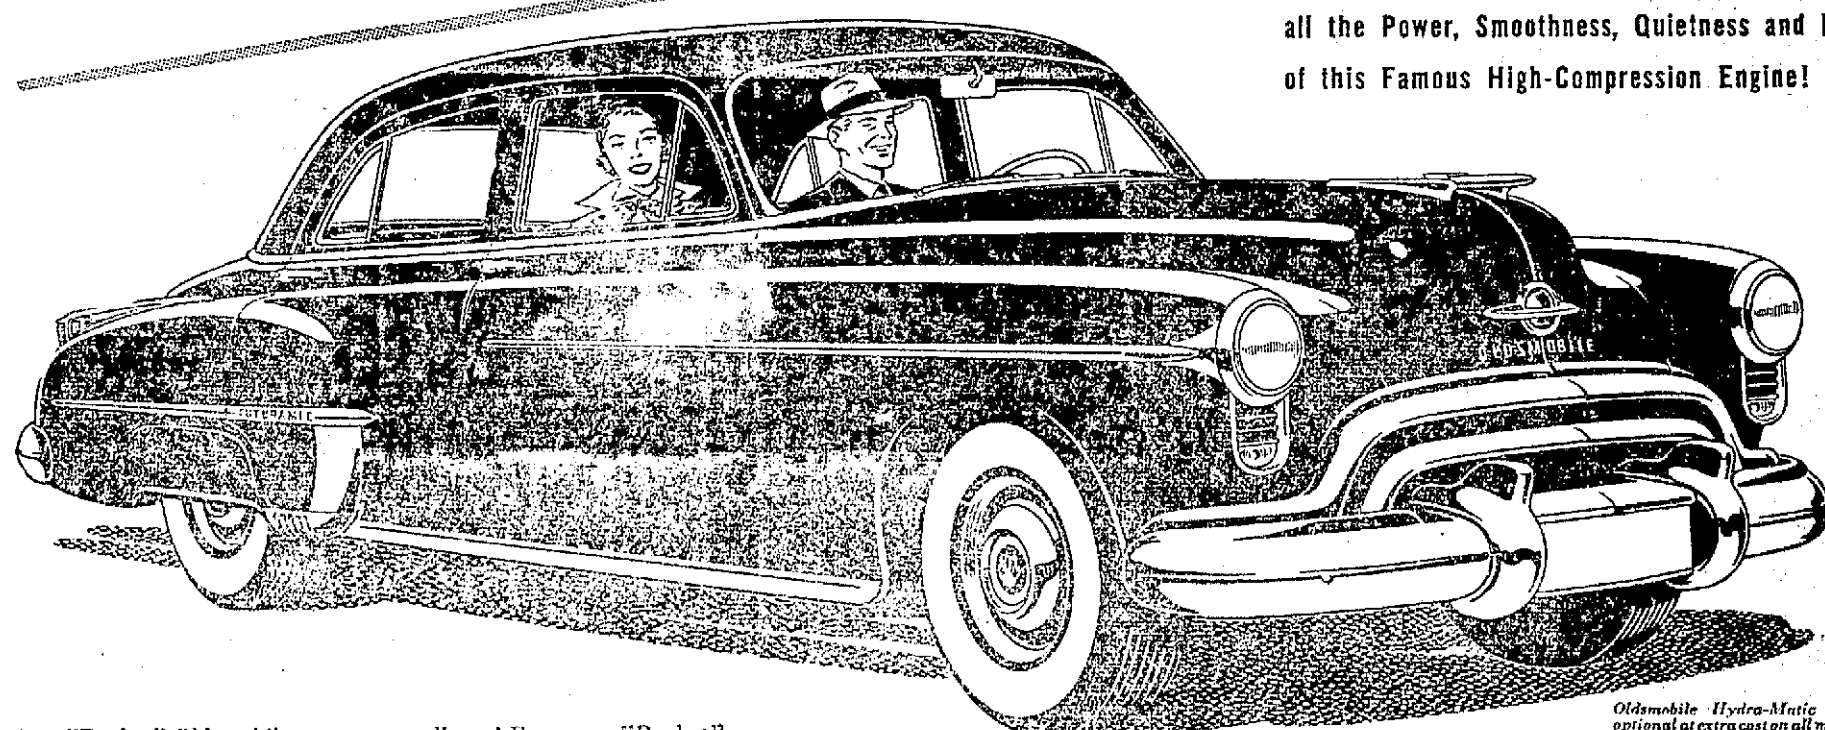

Blackened pans went out years ago! Now pans stay clean with gas that's properly adjusted. You know that when you broil food with gas, it's clean!

Look at the new Automatic GAS Ranges at your Dealer's or Gas Company office and see for yourself that your best cooking buy is an Automatic GAS Range.

## COMMUNISTS IGNORE NEW SECURITY ACT

Washington, Oct. 24 (AP)—The Communist party and all its affiliated groups continued today to ignore the new internal security act as a move was made to overthrow the act in the courts.

The time allowed for voluntary registration by "Communist action" and "Communist front" organizations expired when the Justice Department closed its business day yesterday. The law requires these organizations to register, disclose their sources of funds and in some cases furnish complete membership lists.

In the view of government officials, this disregard of the registration provisions constituted open defiance to be followed by enforced registration procedure. It was indicated first steps will soon be forthcoming.

**These Developments**  
Meanwhile there were these developments:

1. The Justice Department continued a nationwide roundup of alleged top alien Communists in the United States, designed to bring about their deportation or force their departure. A provision of the new law provides for their detention, in jails or on Ellis Island, while proposed deportation is pending. The drive was aimed at about 86 aliens whom the department described as among the party's most active instructors and propagandists.

2. A large group of persons opposed to the new act sought to enjoin enforcement of any of its numerous provisions, and particularly the Communist registration requirement, in the U.S. district court here. The 107 plaintiffs from 32 states included Elizabeth Gurley Flynn, member of the Communist party's national committee; Wil-

## Littlestown

Littlestown—The weekly rehearsal of the Littlestown Men's chorus will be held Thursday at 9 p.m. in St. Paul's Lutheran church. Director L. Robert Snyder has stated that this will be the last rehearsal before their engagement on Sunday afternoon at 2:30 o'clock at the Veterans' hospital, Coatesville. This engagement is sponsored by the Mason and Dixon Memorial Post No. 6954, VFW.

Week-end visitors at the home of the Rev. and Mrs. Samuel W. Beck, East King street were their son and daughter-in-law, Mr. and Mrs. Leslie Beck and son Richard, Radford, Va., and their son-in-law and daughter, Mr. and Mrs. George Sheaffer, daughter Barbara and son John, Millford, Del.

Charles Ritter, general chairman of the Pennsylvania Week observance in Littlestown, has announced that Mrs. Monroe Staveley, East

William L. Patterson, attorney and secretary for the civil rights congress, which is on the attorney general's subversive list; and Arthur Schutze, executive secretary of the American labor party of New York.

3. President Truman named the five-man bipartisan Subversive Activities Control Board (SACB) authorized in the internal security act to order the registrations of reluctant Communist groups. Continued failure to register, after a board order, will involve fines up to \$10,000 a day for organizations and in the case of individuals a \$10,000 fine or five years' imprisonment, or both.

4. Immigration service officials put finishing touches on a new set of regulations required by the new law for a blanket ban on admissions of present or former members of any foreign totalitarian movement. The ban is now being applied to all present or past Communists, Fascists, Nazis and Spanish Falangists, except where the attorney general grants temporary entry "for compelling reasons."

King street, won the tea set for being the person that was closest in her guess of the number of grains of corn in a quart jar on display in St. Aloysius hall during the observance last week.

The roast turkey supper which will be served family style by the Ladies' Aid society of St. John's Lutheran church, will be held Saturday, November 11, beginning at 4 p.m. instead of November 4 as previously announced. This supper will be held in the social hall of the Sunday school building.

Den No. 2 of Littlestown Cub Pack No. 84, Mrs. Robert Miller, den mother, enjoyed breakfast at the Victory Lunch, Hanover, on Saturday morning at the time of the broadcast. It was the 10th birthday anniversary of Wayne Miller, son of the den mother. After the broadcast, they visited the Boy Scout counter at Penney's to become acquainted with many of the items of Boy Scout paraphernalia. Those attending were Wayne Miller, John Reynolds, William Renner, Robert Basehor, Kenneth and Douglas Knight and Dean Reynolds.

Evelyn Dickinson was the leader of the Christian Endeavor society of St. Paul's Lutheran church on Sunday evening. Following a song service, a poem was read by Dolores Rae Reindollar. Darla Lemmon read the scripture lesson and Albert Stock offered prayer. Dawn Pettyjohn presented a piano solo. The topic, "Let him deny himself" was discussed by the leader. Tonight the society will hold a Halloween party at the church at 7:30 o'clock. This party will be for the members and their guests. The following committees are in charge of the event: Refreshments: Dolores Rae Reindollar, Evelyn Dickinson, Dolores Koontz and Lou Elta Miller; decorating: Albert Stock, Gene Miller, Jean Yealy, Darla Lemmon and Dawn Pettyjohn; games: Lydia Sentz, Jean Yealy and Mary Keith. Next Sunday evening, Dolores Rae Reindollar will be the leader, when the topic will be "Go ye into all the world."

## DRAFT FACING PROBLEM WITH COLLEGE BOYS

By JAMES MARLOW

Washington, Oct. 24 (AP)—The nation faces the following problem as it drafts young men for the armed forces:

There's a continuing need for scientists, doctors, lawyers, educators, scholars and other college-trained, professional people.

There's a double need for them: The nation is still growing and they must be available to replace older men who die or retire.

This country feels now a shortage of such young scientific and professional people as a result of the drain on them in World War II.

If those now of draft age have to spend two or three years in the army, they can't get the necessary college or professional training either.

What's the answer? Take them into the army anyway and let the future worry about young, trained scientists and other professional men?

**Penalizing the Poor**  
Or, perhaps, should all college stu-

dents be draft-proof? If that's the answer, then—

Many youths with high intelligence, lacking the money for college, will have to serve in the army while others, with money but poorer minds, will be deferred from military service.

That would mean penalizing youth because they were poor. What then is the solution if the armed forces are to get the young men they need while the nation continues to get a flow of college-trained men?

To help find the answer, Maj. Gen. Lewis B. Hershey, director of selective service, in the fall of 1948 called on scientists, educators and scholars.

He appointed seven committees of them. They've worked on the problem ever since and this month turned in their recommendations to Hershey.

He hasn't acted on them yet. There's no indication when he will act or whether he'll accept or reject the recommendations or revise them. Briefly these are the recommendations:

1. Youths who score the equivalent of 120 or more on the army's general classification test—an intelligence test—get deferred so long as they continue in school, provided—

They're in the upper half of the freshman class, the upper two-thirds of sophomore year, the top three-fourths of junior, and—if they

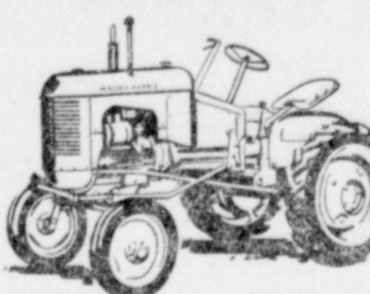

want to go on to graduate school—after half of senior year.

2. A poor boy who shows superior intelligence in a test should be sent to college on a scholarship paid for by the government because the nation needs brains, no matter who has them.

And these committees don't draw

## It's fair to share

Just as sharing a soda helps young love—sharing a party line helps improve telephone service.

If party-line neighbors use their telephone sharingly—space calls fairly—don't interrupt calls except in extreme emergency—and always hang up the receiver carefully—better service for everyone is bound to result.

Why not prove it on your party line?

An up-to-date comparison of all ranges proves—

**Your best buy in cooking is an automatic**

# GAS RANGE

It's not just a matter of style, although today's gas ranges—like today's automobile—are far more beautiful than their predecessors of a few years back. Mechanical improvements in gas ranges are equally as sensational as those in the modern automobile... so when you're considering a new range, make certain that your comparison is based on 1950 models—not on the old gas range you're using, or the one your mother had. Here are some facts that will help you judge the merits of modern cooking equipment.

## Only with GAS

—can you cook food the way it should be—at the right temperature—because you have hundreds of different heats to choose from. Cooking doesn't take as long with gas, either, and food tastes better!

## Compare Costs

—and you'll find a whale of a difference! You can own a new automatic gas range for from \$30 to \$100 less than others. You can have it set up cheaper... you can cook on it for less. You'll have no expensive burners to replace, for gas burners don't wear out.

## Better Baking

Cake layers are look-alikes when they come out of the oven of an automatic gas range—baked evenly all the way through, even though baked on different shelves. Pies, casserole dishes,—anything bakes better in your automatic gas oven.

## Really Clean!

The longer you have your automatic gas range, the more you'll like it. When it comes time to clean it—you'll be doubly thankful. Just lift burners and drip pans out, wash them, put them in again. It's that simple.

## Broiling with GAS

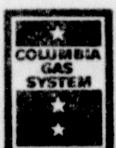

—is a delight. No smoke gets into the kitchen. The gas flame eats it all up.

## No blackened pans

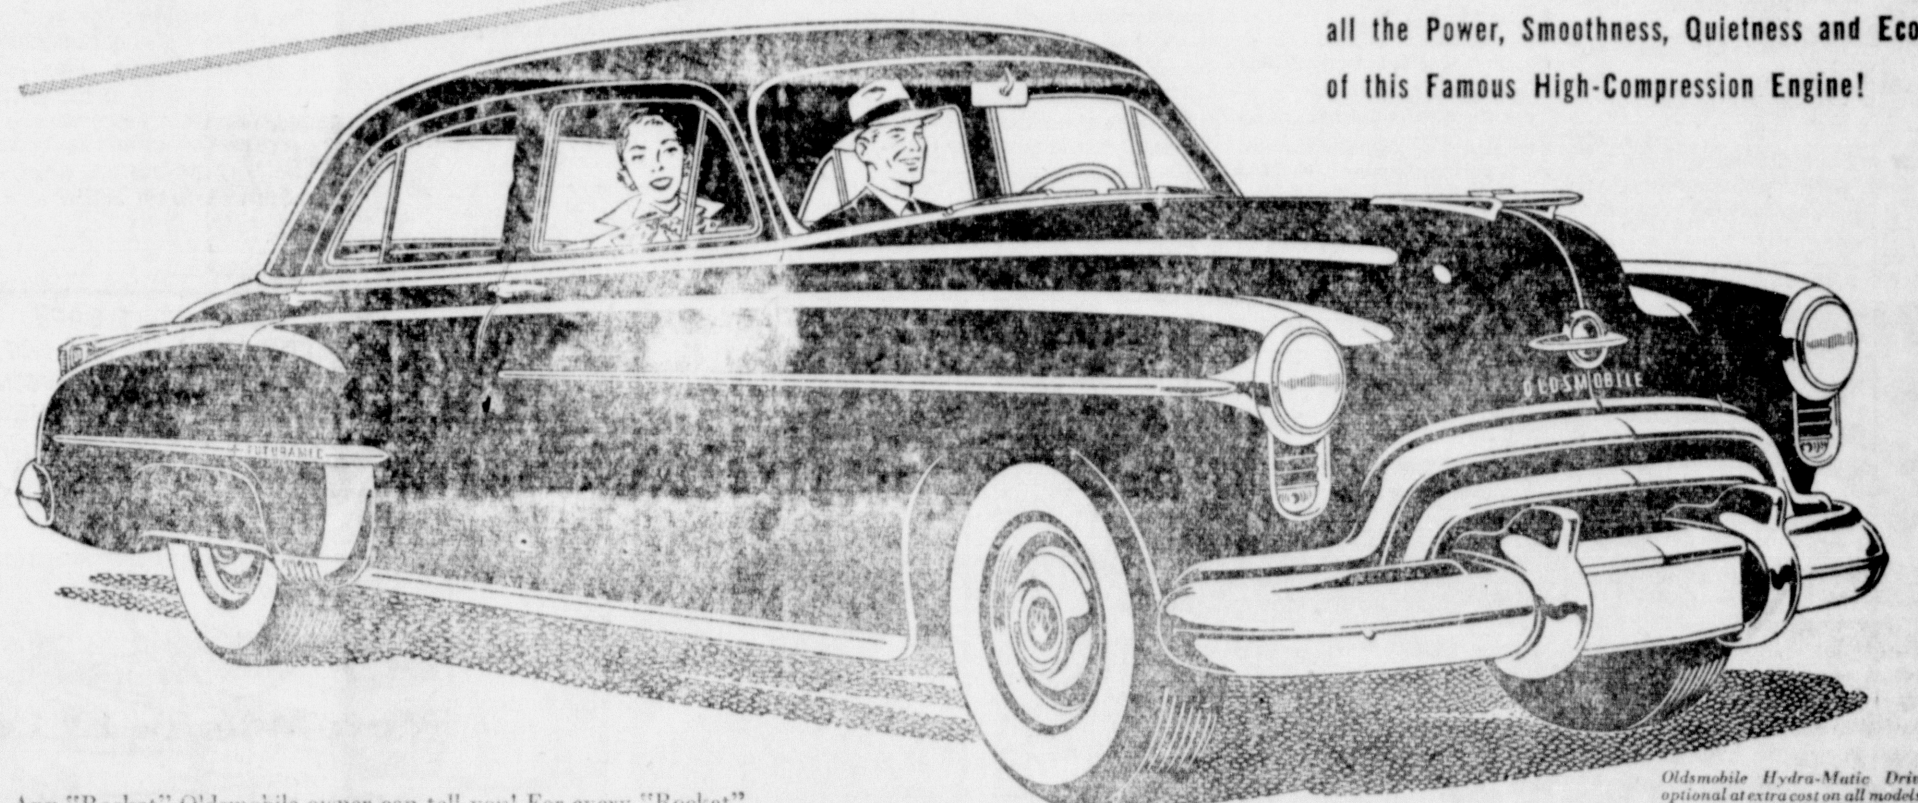

Blackened pans went out years ago! Now pans stay clean with gas that's properly adjusted. You know that when you broil food with gas, it's clean!

Look at the new Automatic GAS Ranges at your Dealer's or Gas Company office and see for yourself that your best cooking buy is an Automatic GAS Range.

## Today's Talk

BY GEORGE MATTHEW ADAMS

### HEART POWER

We speak of our automobiles and boast of our engines as having so much "horse power," that being the measure of their speed. I got to thinking this over and I began to think of those wonderful human beings, who when contacted, seem to uplift and inspire us so that the very speed of our mind is accelerated and our heart, as well, given renewed power.

If an engine has a high horsepower, or as it is written h.p., we know at once how powerful it is. Now as to heart power take Dr. Albert Schweitzer, for example. He was noted as one of the greatest musicians and theologians in all Europe, but he gave all that up for the mightiest administrator to thousands of ignorant, though needy, natives in the primeval jungles of Africa and among a strange and primitive people. For nearly half a century he has given himself away in service. Life magazine called him "the greatest man in the world."

How would you estimate the heart power of such a one? How fortunate many of us are with the friends we have, for every great one means that much more heart power to us. And every time we do something worthy, or helpful to some one else, we increase the heart power within ourselves.

I have read many a book, seen many an act in a theatre, and witnessed many a fine deed by some one, that increased immediately my own heart power, for we are being forever influenced. We take heart when we see others brave and uncompromising. But our heart power is lowered when people speak so as to hurt our feelings, or make us unhappy. It's heart power, not material power, that builds character and nations!

Tomorrow Mr. Adams will talk on the subject: "We Die A Little"

## Just Folks

**ANCESTRY**  
Behind us all there lies a host  
That hoped and dreamed, as  
now do we,  
And toiled for those they  
cherished most  
And gave to us our ancestry.

The men their maidens wooed  
and wed.  
The mothers, as do ours today,  
Knelt nightly as some little bed  
To hear their sleepy children  
pray.

And some were strong and some  
were weak  
And some were brave and  
some afraid;  
Some arrogant and others meek.  
A few their little fortunes  
made.

They lived for us, but knew us  
not.  
Descendants of that host are  
we  
And after us, when we're forgot,  
Will children come we'll never  
see.

## Al Jolson, Jazz Singer, Dies Suddenly Last Night

San Francisco, Oct. 24 (AP)—Al Jolson, the veteran jazz singer who was the first U.S. star to entertain troops overseas in both the second world and Korean wars, died unexpectedly last night with a quip on his lips:

"Hell, Truman had only one hour with MacArthur. I had two!"

Then . . . "I'm going, boys," the famous mammy singer told two longtime friends with whom he was playing gin rummy in the St. Francis hotel.

He died quietly, quickly, of a coronary occlusion . . . and without pain, said the house physician.

**Just Back From Korea**  
Jolson, 64, had returned only two weeks ago from Korea, where he sang to Allied troops. He had a two-hour luncheon chat with General MacArthur in Tokyo enroute.

President Truman and MacArthur talked privately just an hour on Wake Island a week ago Sunday in their historic get-acquainted meeting.

With Jolson were two old friends, song writer Harry Akst and Martin Fried, Al's accompanist and arranger. They had come with him from southern California for a scheduled guest star spot on a Bing Crosby radio show, to have been recorded here tonight.

Akst telephoned Jolson's fourth wife, Erle Galbraith, whom he married in 1945. She was at Encino, Calif. She was reported to have collapsed with grief.

**Entertained GI's**  
Jolson was riding the crest of a popularity wave for the second time in an entertainment career that began in 1899. His popularity with the troops was unsurpassed. In World War II, he traveled to Europe, Africa, India and the Pacific, entertaining GI's for the USO.

On his return from Korea, where he gave 42 shows in 16 days, he said: "Know what it feels like to be back? I'm going to look up my income tax and see if I paid enough. Those guys are wonderful! This is a much tougher war than the last one, believe me."

He entertained GI's at the front when the American beachhead in Korea was at its smallest and under constant attack.

"I was singing up there for some guys and there was a lot of noise," he related. "So I says to an officer, 'Why don't you tell those kids of yours outside to stop shooting off those rifles?'"

"Those aren't our kids," he told me!

### Born In Russia

Al was born Asa Yoelson on May 26, 1886, the son of a Jewish cantor, in what was then St. Petersburg, Russia. He came with his family to Washington, D. C., while a small boy. His father trained him for the church. But he had other ideas. He appeared in a play mob scene and then ran off with a circus.

He first starred on the stage—in blackface—in 1909 with Lew Dock-staders' minstrels. Two years later he was discovered by the Shuberts and hired for their Winter Garden in New York.

The most famous of his Broadway performances was his bended-knee rendition of "Mammy," for which he became known as the Mammy singer. Then Hollywood beckoned.

His greatest movie, "The Jazz

## GILBERT'S CASE BEFORE COUNCIL

Washington, Oct. 21 (AP)—Judson Ruch, lawyer for the only soldier who has received a court martial death sentence in the Korean War, takes the officer's case before the Army's judicial council today.

Ruch, of York, Pa., was to plead normally in the case of Army Lt. Leon Gilbert, also from York.

Gilbert was sentenced to death by General Court Martial for "misbehaving himself before the enemy by refusing to advance with his command" in Korea in World War Two. Only one serviceman paid the supreme penalty for a military offense.

Gilbert's sentence was upheld by Maj. Gen. William B. Kean, 25th Division commander, and sent to the Army's Judge Advocate General, Maj. Gen. E. M. Brannon, for review.

That's where it is now. If Gen. Brannon decides the trial was properly conducted, with regard to the points of military law involved, he cannot change the verdict. However, the case then must go to President Truman, who alone has the authority to modify or set aside the verdict.

Eye witnesses who should have become defense witnesses, an officer said, weren't given time off to testify at the trial, but prosecution witnesses were. Smith said Gilbert did not actually disobey the order to advance, but rather "attempted to reason" with his commanding officer. Gilbert has said the same thing but the court martial held he did disobey the order. An army spokesman said only the finest of liars separates arguing about an order and disobeying it.

### ON WOET PROGRAM

The Rev. Norman L. Bortner, Donald Golden and Mrs. Mildred Pittenturf represented York Springs in presenting a Pennsylvania Week program over station WOET Friday evening at 6:15 o'clock. Folk music, Pennsylvania Dutch dialogue and folk lore were featured on the program.

Harrisburg, Oct. 21 (AP)—Investigation of what State Senator George B. Scarlett describes as "a racket which has cost Chester county

mushroom growers and estimated \$1,200,000 a year" starts today, the senator says.

Scarlett said last night at Media the Department of Weights and Measures would investigate truckers who, in his words, have been watering down manure brought in from out of state and selling it to mushroom growers by weight.

“FOOL-PROOF” DISARMAMENT PLAN ASKED FOR BY PRES. TRUMAN

By ERNEST B. VACCARO  
Flushing Meadows, N. Y. —Oct. 24 (AP)—President Truman challenged Russia today to agree to a “fool-proof” disarmament plan so that the United Nations will be free to wage a world-wide “war against war.”

The United States and other free nations, Mr. Truman said, will continue to build up their military forces as insurance against aggression until there is unanimous agreement in “international control of atomic energy and the reduction of armaments and armed forces.”

The United States, now committed to that course, will follow it as necessary, the President said in an address prepared for the United Nations General Assembly in the fifth anniversary of the day in which the U. N. charter came into force.

Leaves Door Open  
He left the door open for East-West Peace talks both “in the United Nations and elsewhere”—a reference he did not expand—but said he free nations have learned the hard way that negotiations alone will not preserve peace. There must be armed strength as well, he said, to resist aggression.

With delegates from Russia and other iron curtain satellites in his audience, Mr. Truman avoided mentioning Russia by name, but his indictment of Communist aggression allowed the lines of his San Francisco speech a week ago.

At that time, he said, “the Soviet Union and its colonial satellites”—both Europe and Asia—are maintaining vast armies which pose a constant threat to world peace.”

Basic Principles  
Much of today’s talk was devoted to the hope of world disarmament. In that connection, he said that the U. N. might well consider whether its work in that field might be revitalized through merger of two groups it has working on to problem, one on general disarmament and the other on control of atomic energy.

Mr. Truman offered these three basic principles for disarmament: “First, the plan must include all kinds of weapons. Outlawing any particular kind of weapon is not enough. The conflict in Korea bears witness to the fact that aggressive weapons, whatever the weapons used, brings frightful destruction.”

“Second, the plan must be based on unanimous agreement. A majority of its nations is not enough. No plan of disarmament can work unless it includes every nation having substantial armed forces. One-sided disarmament is a sure invitation to aggression.”

“Third, the plan must be fool-proof. Paper promises are not enough. Disarmament must be based on safeguards which will insure the compliance of all nations. The safeguards must be adequate to give immediate warning of any threatened violation. Disarmament must be policed continuously and thoroughly. It must be founded upon free and open interchange of information across national borders.”

Mr. Truman conceded that the possibility of attaining that goal appears distant today, but he declared, “we must never stop trying.”

Paper Ballots Losing Ground

Harrisburg, Oct. 24 (AP)—The paper ballot is gradually giving way to the voting machine in Pennsylvania. But the paper ballot still predominates.

Latest figures show that voting machines are now being used in 25 of the “Commonwealth’s” 67 counties. By districts, machines are used in a total of 3,740, while paper ballots are cast in 4,616. The number of machines now in use totals about 7,500.

While pulling a lever is quicker and simpler, in some respects, than marking paper ballots, there is still one big obstacle in the way of voting machines in the Commonwealth, the expense.

A voting machine costs upwards of \$1,500. The cost of paper ballots by comparison is negligible. Voting machines became legal in Pennsylvania in 1929, with Delaware county the first to adopt their use.

Saigon, Indo-China, Oct. 24 (AP)—French warplanes struck hard today at Langson, big Indo-China border fortress abandoned by French troops last Wednesday.

A French military spokesman said the planes hit gasoline and oil tanks that the withdrawing troops had not been able to destroy. Ammunition and food stocks left behind by the French also were bombed, he said, to keep the Vietnamese troops of Moscow-trained Ho Chi Minh from using them.

POLITICS AT-A-GLANCE

(By The Associated Press)  
U. S. Sen. Francis J. Myers at Bradford criticized Republicans for what he termed their “blind condemnation of Federal spending” and said the Democratic 81st Congress did its best to advance research projects, airport and flood control work.

Gov. James H. Duff said at Harrisburg that he knew of no better way to present his qualifications as a senatorial candidate than “to show you the way in which I have looked after your interest as governor.”

Richardson Dilworth in a political telecast promised a sweeping state investigation of the Philadelphia city government if elected governor.

Also in Philadelphia, John S. Fine promised, if elected, to press the 1951 legislature for enactment of “a real, workable fair employment practices law.”

Judge Michael A. Musmanno told the Lawrence county United Labor Committee at New Castle that “the Republican party is the betrayer of labor.”

State Welfare Secretary William C. Brown said Richardson Dilworth “does not know what he is talking about” when he criticizes the Duff administration for its welfare building program.

Grand Forks, N. D., Oct. 24 (AP)—A new source of power, big enough to operate American industry 400 years was described Monday at the University of North Dakota. The power source is a new gas from lignite, perfected by the U.S. Bureau of Mines, in cooperation with the university.

Lignite is a black, low-order coal, which is about 35 per cent water. The United States has 9,000,000,000 tons. That’s one-quarter of all our coal still unmined.

Taipei, Formosa, Oct. 24 (AP)—An imprisoned Chinese Red agitator said Monday the Communists ordered an underground campaign against the United States almost immediately after the end of World War II.

The Communist, Hung Kuo Shih, 33, son of a wealthy Manchurian landlord, was arrested by the Chinese Nationalists February 28. His life was spared after he con-

Lake Success, Oct. 24 (AP)—Soviet Foreign Minister Andrei V. Vishinsky charged Monday that President Truman’s foreign policy is based on force and the same “guns before butter” formula which Hitler followed.

He attacked the President’s speech in San Francisco last Tuesday following the President’s return from his Wake Island conference with Gen. MacArthur. That speech, Vishinsky said, “had no want of anti-Soviet sentiments” to back up plans for a new war and new sacrifices by taxpayers.

# "FOOL-PROOF" DISARMAMENT PLAN ASKED FOR BY PRES. TRUMAN

By ERNEST B. VACCARO  
Flushing Meadows, N. Y., Oct. 24 (AP)—President Truman challenged Russia today to agree to a "fool-proof" disarmament plan so that the United Nations will be free to wage a "world-wide" war against want.

The United States and other free nations, Mr. Truman said, will continue to build up their military forces as insurance against aggression until there is unanimous agreement on "international control of atomic energy and the reduction of armaments and armed forces."

The United States, now committed to that course, will follow it as long as necessary, the President said in an address prepared for the United Nations General Assembly on the fifth anniversary of the day on which the U. N. charter came into force.

Leaves Door Open  
He left the door open for East-West peace talks both "in the United Nations and elsewhere"—a reference he did not expand—but said the free nations have learned the hard way that negotiations alone will not preserve peace. There must be armed strength as well, he said, to resist aggression.

With delegates from Russia and her iron curtain satellites in his audience, Mr. Truman avoided mentioning Russia by name, but his indictment of Communist aggression followed the lines of his San Francisco speech a week ago.

At that time, he said "the Soviet Union and its colonial satellites" in both Europe and Asia are maintaining vast armies which pose a constant threat to world peace."

Basic Principles  
Much of today's talk was devoted to the hope of world disarmament. In that connection, he said that the U. N. might well consider whether its work in that field "might be revitalized" through merger of two groups it has working on the problem, one on general disarmament and the other on control of atomic energy.

Mr. Truman offered these three "basic principles" for disarmament: "First, the plan must include all kinds of weapons. Outlawing any particular kind of weapon is not enough. The conflict in Korea bears tragic witness to the fact that aggression, whatever the weapons used, brings frightful destruction."

"Second, the plan must be based on unanimous agreement. A majority of its nations is not enough. No plan of disarmament can work unless it includes every nation having substantial armed forces. One-sided disarmament is a sure invitation to aggression."

"Third, the plan must be fool-proof. Paper promises are not enough. Disarmament must be based on safeguards which will insure the compliance of all nations. The safeguards must be adequate to give immediate warning of any threatened violation. Disarmament must be policed continuously and thoroughly. It must be founded upon free and open interchange of information across national borders."

Mr. Truman conceded that the possibility of attaining that goal "appears distant today," but he declared, "we must never stop trying."

New York, Oct. 24 (AP)—President Truman, here to speak at the United Nations, was up at 6:45 a. m. (EST) today and took his regular morning walk despite rainy-looking skies.

His route paralleled the Belmont Park race track, and Mr. Truman clocked about a mile and a quarter in 30 minutes.

Not too many people were out that early, even to see a President, but a few had been waiting for hours.

## Paper Ballots Losing Ground

Harrisburg, Oct. 24 (AP)—The paper ballot is gradually giving way to the voting machine in Pennsylvania. But the paper ballot still predominates.

Latest figures show that voting machines are now being used in 25 of the "Commonwealth's" 67 counties. By districts, machines are used in a total of 3,740, while paper ballots are cast in 4,616. The number of machines now in use totals about 7,500.

While pulling a lever is quicker and simpler, in some respects, than marking paper ballots, there is still one big obstacle in the way of voting machines in the Commonwealth, the expense.

A voting machine costs upwards of \$1,500. The cost of paper ballots by comparison is negligible. Voting machines became legal in Pennsylvania in 1929, with Delaware county the first to adopt them.

San Marino is the oldest and smallest republic in the world.

## POLITICS AT-A-GLANCE

(By The Associated Press)  
U. S. Sen. Francis J. Myers at Bradford criticized Republicans for what he termed their "blind condemnation of Federal spending" and said the Democratic 81st Congress did its best to advance research projects, airport and flood control work.

Gov. James H. Duff said at Harrisburg that he knew of no better way to present his qualifications as a senatorial candidate than "to show you the way in which I have looked after your interest as governor."

Richardson Dilworth in a political telecast promised a sweeping state investigation of the Philadelphia city government if elected governor. Also in Philadelphia, John S. Fine promised, if elected, to press the 1951 legislature for enactment of "a real, workable fair employment practices law."

Judge Michael A. Musmanno told the Lawrence county United Labor Committee at New Castle that "the Republican party is the betrayer of labor."

State Welfare Secretary William C. Brown said Richardson Dilworth "does not know what he is talking about" when he criticizes the Duff administration for its welfare building program.

## NEW DRUG HAS MANY POSSIBLE MEDICAL USES

By ALTON BLAKESLEE

(Associated Press Science Reporter) Poston, Oct. 24 (AP)—A white powder that eats up dead tissue and pus in a chest infection, without hurting healthy tissue, was reported today to the American College of Surgeons.

It promises to become a new wonder medicine to clean up infected wounds, chronic sinus trouble, and other infections.

The powder is pure crystallized trypsin, a natural chemical in your digestion. The trypsin made in your body digests the meat and other proteins you eat. But it doesn't touch living proteins, or otherwise it would dissolve the intestines.

From Glands Of Cows  
Trypsin has easily dissolved jelly-like masses that sometimes form in the chest cavity, outside the lung, in people with tuberculosis, said Dr. Howard Reiser, L. C. Roettig and George M. Curtis of Ohio State University College of Medicine, and Clark County and Rocky Glen tuberculosis hospitals, Columbus.

The trypsin, extracted from the pancreas glands of cows, was supplied by Armour Laboratories, Chicago.

One possibility is treating war wounds or any infected injuries. In these, there is danger of gangrene, an infectious process that spreads to and destroys healthy areas. The dead areas have to be

cut out, with much healthy tissue also removed for safety. Trypsin may remove the dead tissues and halt the infection quickly.

In chronic sinus, hollow cavities in the head can become clogged with debris, including germs and dead tissue. Drugs can't reach the germs. Trypsin may clear the way for the drugs.

## Parson To Soak Cop \$14.95 Wedding Fee

Madison, Tenn., Oct. 24 (AP)—When Miss Alice Ann Baker asked the Rev. James H. Elder to conduct her marriage ceremony Dec. 4 he asked to meet the groom-to-be.

That proved a little embarrassing. It turned out to be state highway patrolman Walter Toone who only two days earlier had nabbed Dr. Elder for speeding.

Toone has good reason to be nervous now, Dr. Elder told him:

"I am searching for the longest and most agonizing ritual in the Methodist church. Of course, I'll ask a long list of questions, but will break in before you can answer any of them."

"The fee? It'll be \$14.95 plus costs. And if you are ever brought before me again, I'll double it."

New York, Oct. 24 (AP)—There are 100,000 out-of-wedlock births in the United States every year, according to Leonard W. Mayo, president of the Child Welfare League of America. He gave the figure yesterday in a report to the league's board of directors on domestic and health problems.

# FORD is nimble

Fleet of foot is the fine '50 Ford with its pick of nimble power, V-8 or Six. You get extra safe, sure-footed stops, too, with 35% less pedal pressure, thanks to Ford's big King-Size Brakes. And you'll find Ford's "Finger-Tip" Steering makes Ford a honey to handle on the highway—a plaything to park.

# FORD is slick

Slick as a whistle is your ride in a '50 Ford. Bumps are sponged up by Ford's "Hydra-Coil" and "Para-Flex" Springs before they get to you, giving you the feel of pavement smoothness on rutted dirt roads.

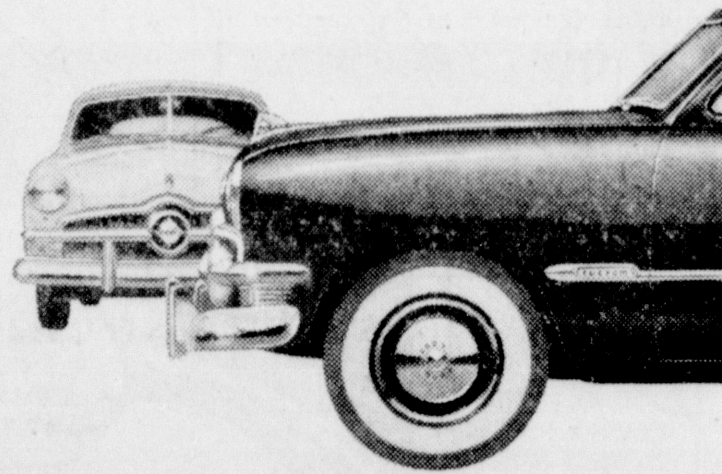

White sidewall tires and wheel trim rings optional at extra cost.

# with 2 Great Engines

V-8 or Six—whichever you pick, you'll find no other engines in the low-price field that can live up to Ford's get-up-and-go and savings. For Ford features like "Power Dome" combustion and Loadomatic ignition give both Ford power plants high compression performance with regular gas. Ford's V-8 engine (the same type of engine powering America's costliest cars) sells for hundreds less than most sixes—and Ford's Six is priced even lower.
